PROFESSIONAL SUMMARY

Web developer with 4+ years of experience building scalable, responsive web applications using React, Next.js, and TailwindCSS. Specializing in end-to-end delivery of e-commerce platforms, business websites, and custom web solutions — from client requirements gathering through deployment and maintenance. Proven track record of translating Figma designs into pixel-perfect, accessible interfaces with optimized performance.

CORE SKILLS

Languages & Frameworks: React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Vite

Styling & UI: TailwindCSS, Framer Motion, GSAP, Responsive Design, UI/UX Implementation

Backend & Services: Firebase (Auth, Firestore), Supabase, REST APIs, EmailJS, Cloudinary

Tools & Workflow: Git, GitHub, Figma, Vercel, Netlify, Performance Optimization

WORK EXPERIENCE

Freelance Web Developer & Designer   Jan 2021 – Present (4+ Years)

Remote | Serving clients worldwide

- Built full-stack e-commerce platforms with product catalogs, admin dashboards, inventory tracking, and secure checkout flows
- Developed responsive, accessible interfaces using React, Next.js, and TailwindCSS with cross-browser compatibility
- Implemented authentication systems, CRUD operations, and real-time data management using Firebase and Supabase
- Optimized web performance achieving 90+ Lighthouse scores through code splitting, lazy loading, and image optimization
- Translated Figma mockups into pixel-accurate, production-ready components with smooth animations (Framer Motion, GSAP)

SELECTED PROJECTS

Ralyn's Limited — E-Commerce Platform   *Next.js | Supabase | TailwindCSS*

- Built a full-featured e-commerce platform with product catalog, cart system, and secure checkout for a retail business
- Developed admin dashboard with real-time inventory tracking, order management, and product CRUD operations
- Integrated Supabase for authentication, database management, and row-level security policies
- Debugged and resolved complex cart logic and state management issues to ensure seamless user experience

Bukkaisland — Food Ordering Platform   *React | Firebase | Cloudinary*

- Developed a responsive food ordering website with dynamic menu, blog section, and external order link integration
- Built admin authentication and content management system using Firebase Auth and Firestore
- Integrated Cloudinary for optimized image storage and delivery, improving page load performance

HTX City Rentals — Event Rental Application   *React | Framer Motion | EmailJS*

- Built a modern event rental web app with animated UI, cart system, and quote request workflow using Context API
- Integrated EmailJS for automated inquiry and confirmation emails, reducing manual client follow-up

UI/UX Designer Portfolio   *Next.js | TailwindCSS*

- Translated Figma designs into a pixel-accurate, accessible, and responsive portfolio website for a design client
- Achieved optimized performance and cross-device compatibility through progressive enhancement techniques

EDUCATION & DEVELOPMENT

Self-Taught Developer — Continuous learning through documentation, open-source projects, and building real-world applications

Core Focus: React ecosystem, modern JavaScript, responsive design patterns, cloud services integration
